**\$12.00 Rabies Vaccine/Certificate/ City License Tag**

**Pet must be 12 weeks of age or older to receive the Rabies vaccine!**

The City of Brownsville Health Department in conjunction with the local veterinarians and B.I.S.D. will be sponsoring the 2016 Rabies Clinics. The cost will be \$12.00 per pet; other boosters will also be available. All pets must be vaccinated yearly against rabies and tags must be displayed on the pet's collar.

El departamento de Salubridad de Brownsville, los veterinarios, y las escuelas de Brownsville van a tener clinicas para vacunar a sus mascotas contra la rabia. La rabia es un virus que mata animales y humanos cada año. Proteja su mascota y su familia, vacune a su mascot. Por ley todos los animales tienen que estar vacunados cada año contra la rabia. Su mascot debe estar controlada con correa/cadena o en jaula (nunca suelta), y debe de tener las medallas puestas en su collar.
